

AS GOOD AS NEW

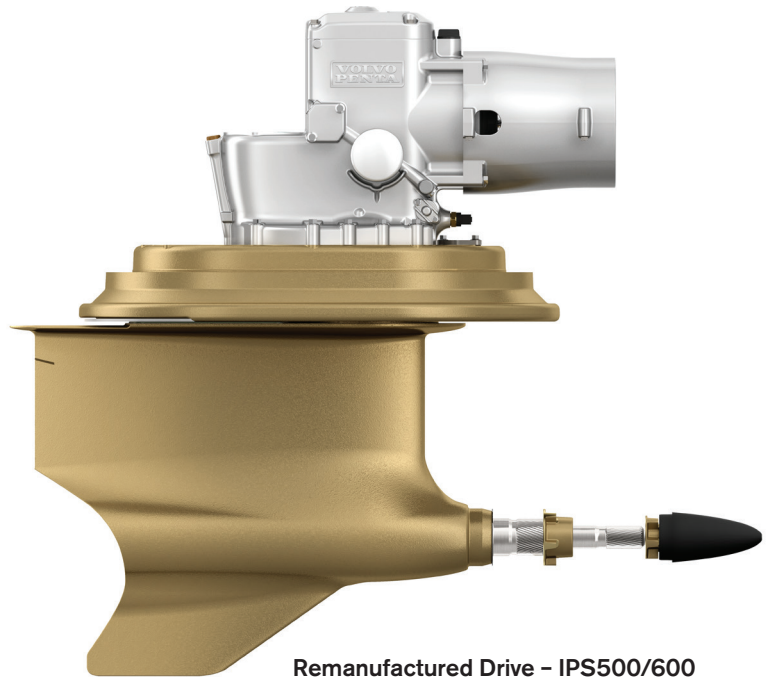

Volvo Penta IPS Factory Reman

MSRP \$16,995

SAVE UP TO

40%

Volvo Penta IPS Factory Reman is the clear choice over buying new or doing a complete overhaul.

Remanufactured Drive - IPS500/600

Genuine performance, lower cost*

- Remanufactured by Volvo Penta
- Drive is built to the latest specifications
- Same quality, reliability, and performance as a new unit
- Fast replacement putting you back on the water quickly
- 2 year warranty when installed by an authorized Volvo Penta dealer
- Save up to 40% vs. buying new
- Separate Upper and Lower gear units also available

* Prices are in USD and will vary by region. Does not include propellers or SUS. The removed IPS drive must be returned to Volvo Penta within 90 days for program eligibility. Labor charges, haul out, blocking, storage, taxes, and any other dealer fees are the responsibility of the purchaser. Effective March 4, 2019.

Why Volvo Penta Reman?

Reliability. Durability. Performance. These are the traits you count on when you buy Volvo Penta Reman. Our remanufactured parts are inspired by years of Volvo's commitment to superior quality, safety and environmental care. At Volvo Penta Reman, quality is in every part we sell.

Only the best

Before a part is requalified, it undergoes a stringent quality control process. We look for signs of wear, hairline cracks or any other flaws that could affect performance. Only the best parts are selected for remanufacturing.

Unsurpassed quality control

Each component is complete disassembled, cleaned and inspected by Volvo Penta Reman technicians. Each part undergoes state-of-the-art crack detection and is precision machined where specified.

Experience that counts

Volvo Penta Reman products are remanufactured using the most advanced recovery techniques. Our technicians reassemble components that have passed our stringent cleaning and remanufacturing process, and install new bearing, gaskets, seals, o-rings and other worn parts.

It's not ready until it's ready

All finished parts are subjected to calibration controls to ensure the correct torque specs are met. Assemblies are tested to be sure they meet Volvo's standards.

A like-new appearance

Precision painting ensures flanges, shafts and threads remain paint-free.

100 percent Genuine Volvo Penta Parts

Genuine Volvo Penta parts are optimized and engineered exclusively for each engine package. Volvo Penta not only guarantees the part itself, but also its fit and function within the complete package. Parts cannot be replaced by non-genuine or generic parts without risking safety, performance and potential breakdown.

Double your warranty

Genuine Volvo Penta Parts and Accessories are covered by our standard 12-month warranty. Have them supplied and installed by an authorized Volvo Penta dealer and we'll extend your warranty to 24 months – including the labor. Consult your nearest dealer for more details.

Wherever, whenever

Our global dealer network – your first line of contact – is backed up by Volvo Penta Action Service, a phone based breakdown and support service providing assistance 24 hours a day, every day of the year.
